REPO DEPO® LAUNCHES NEW INTERACTIVE WEB SITE www.repodepo.ca

TORONTO, ONTARIO: As Part of their 25th anniversary celebrations, RepoDepo®, the world's premier retailer of repossessed assets, including automobiles, trucks, snowmobiles, boats, real estate properties, and more, will launch a new fully interactive web site in December 2003. The new site includes an advanced **Repo Search engine**; a **Real Estate Property search**, and a new, **MyRepo®** section, loaded with extra features.

SEARCH ENGINE

The advanced **Repo Search engine** allows visitors to find what they are looking for quickly and easily. Whether you are looking in Toronto, Victoria or Halifax, RepoDepo.ca has something for everyone. You can focus your search to find a specific type of asset, such as a car, boat or truck, a particular make such as BMW or Ford, and even narrow the criteria by a range of model years. “Our customers have specific needs, and we need to be able to match those needs immediately. The new Repo search allows customers to do this quickly, efficiently and still enjoy the experience”, says, William Meany, President.

REAL ESTATE PROPERTY SEARCH

RepoDepo® has been an industry leader in the moveable property repossessions business for 25 years, and the public has come to expect a high volume of quality bank products. Now, RepoDepo® is in the Real Estate business as well. Repo Depo’s new **Real Estate Property search** is the first of its kind in Canada. The general public can access an extensive listing of Single Family Homes, Townhouses, Semi-detached, Duplexes, Condominiums, Farms, Manufactured Homes and Residential-Commercial properties. All of the listing information is available, and visitors are encouraged to contact the Listing Agents for more information regarding properties.

MY REPO

Another exciting addition to the site is the launch of the RepoDepo®, **MyRepo**® section, a free sign-up feature that offers the public access to additional photos (4 to 12), market values and access to a network of sales and customer service representatives online.

In addition, only **MyRepo**® members can track Recently Viewed Items, Saved Searches, and can have Inventory Lists emailed to them at anytime. All of the great standard sort capabilities are still available, only now you can sort by market value too.

“We are extremely excited about the new improved www.RepoDepo.ca web site; we listened to our millions of users and gave them the features they were looking for”, said Mr. John Regan, the founder and Chairman of ASSET Inc. the parent company of RepoDepo®. “We have more than 25 years experience selling repos for banks and finance companies. We sell more than 25,000 vehicles and properties a year; all sold by statute; all 100% Pure Repo.”

RepoDepo® is a wholly owned subsidiary of Asset Inc., Canada’s leading collection processing and Supply Chain Management Company. Asset Inc has been named one of “Canada’s 50 Best Managed Companies” for the third consecutive year. The company currently serves Canada’s largest banks and trust companies, as well as over 150 U.S. and foreign banks with established collection-processing technology and infrastructure services.
